Agency Spare Parts (previously known as Opaque Whitegoods) was established in 1996 to supply domestic spare parts to wholesalers, trade and retail consumers. Over the past several years, **Agency Spare Parts** has expanded their range to become a major supplier of quality, affordable spare parts for domestic and commercial customers.

Agency Spare Parts are the leaders in their field with an ever growing customer base, exceptional marketing strategies and knowledgeable, friendly staff to assist in sourcing parts. We are a global supplier currently supplying into 9 countries and looking to expand.

Agency Spare Parts is a supplier of spare parts for most makes and models of household appliances like washing machines, refrigerators, dishwashers, dryers, oven and stoves. We are also suppliers of spare parts for air conditioners, hot water and numerous commercial industries. **Agency Spare Parts** are authorised parts distributors for companies such as Robertshaw, Haier, Fieldpiece, BeCool, IceAge, Zero, Planck, Tempwell and globally Fisher and Paykel.

We design, manufacture and source products, and also use a range of international suppliers and manufacturers so we can supply our customers with quality, affordable products. We offer a professional and helpful service, with years of knowledge of our products.

Robertshaw®

INSTALLATION DATA ST SERIES ELECTRIC WATER HEATER THERMOSTATS

The Robertshaw® ST Series Electric Water Heating Thermostats have replaced the EWT1, EWT1L2, EWT2L2, EWT1L2S, W1, W1M2, W2M2, SH and SA Series Thermostats. The models of controls available in the Aftermarket have been planned such similar Robertshaw specifications are interchangeable. Additionally, where Off-Peak dual element controlled water heater thermostats required replacement, the ST can be mixed with EWT and WM series.

WARNING!

You must fit the correct model thermostat. Refer to the guide below for correct model replacement

Cross Reference Guide

Model	Replaces	Comments
ST10	Robertshaw – W1 & EWT1 Series	Thermostat Cycling only. No OTC included.
ST12	Robertshaw – W1M2 & EWT1L2 Series	Thermostat Cycling & Manual Reset OTC. Used for mains pressure electric water heaters.
ST22	Robertshaw – W2M2 & EWT2L2 Series	Thermostat Cycling & Manual Reset OTC. Used for mains pressure electric water heaters.
ST13	Robertshaw – EWT1L2S, SH & SA Series: - Edward Energy – EWT1L2S-202 & SH202 - Solahart – EWT1L2S-203 & SA203 (may require adaptor kit. Available only from Solahart.) - Beasley – EWT1L2S-205 & SA203	Thermostat Cycling & One Shot OTC (no reset). Used on electric boosted solar water heaters.

Note: OTC = Over Temperature Cut- Out

EWT Model Versus ST Model Terminal Locations

Model	Corresponding Terminal Locations					
	1L	2T	3L	4L	4T	2L/1T
EWT1L2/2L2	1L	2T	3L	4L	4T	2L/1T
ST12/22	1	2	3	4	5	No Connection
EWT1	1T	2T				
ST10	1	2				
EWT1L2S	1L	2T	3L	4L		
ST13	1	2	3	4		

Temperature Setting

At all times refer to the requirements of the Department of Health Authorities in your State with regards to their requirements for minimum and maximum temperature settings for storage water heaters. Set the pointer on the replacement thermostat to the same setting as the original thermostat being replaced. If in doubt, do not set above 60°C.

WARNING!

WATER AT OR ABOVE 60°C CAN CAUSE A DEEP SCALD TO A CHILD IN 1 (ONE) SECOND.

Due to continual development, products and specifications are continually reviewed and may change without prior notice.

WIRING DIAGRAMS From Other Brand to Robertshaw ST12 Thermostat Model

WARNING!
It is recommended that nickel plated lugs be used. Ensure screws are tightened securely before reconnecting to main supply.

WARNING!
1. All wiring of the thermostat must conform to AS3100 and is to be installed by qualified electrician or service technician.
2. Electrically isolate thermostat from main supply before disconnecting. Failure to do so can result electric shock.

WIRING DIAGRAMS ST10, ST12, ST22 Thermostat

Non-Simultaneous 2 Element, Off Peak
NOTE: ST22 to be connected in this configuration only, and its set temperature shall be lower than ST12.

INSTALLATION DATA M SERIES REPLACEMENT KIT

WARNING!
Replacement of Energy Regulators must only be carried out by a qualified Electrician or Service Technician. Prior to replacing an Energy Regulator, disconnect the appliance from the power supply. Please read the information below for installation instructions.

To begin installation, disconnect the appliance from the power supply.

If the Energy Regulator being replaced has an earth wire attached to it, this earth wire may have been used to earth the panel it is mounted to. This Energy Regulator has no earth terminal requirement, but the panel may still need to be earthed. In this case, the earth wire must be attached directly to the panel the control is mounted to.

WARNING!
If the Energy Regulator in this kit has a square steel shaft, the following instructions apply

SHAFT DIAMETER

There are three standard shaft diameters included in this kit: 3/16", 1/4" and 6mm.

Energy regulators with 3/16" shaft do not require an adaptor to be fitted.

The adaptors fit over the shaft to convert it to 6mm as shown on Figure 1, and to 1/4" as shown on Figure 2.

SHAFT LENGTH

The steel shaft is 1" long and can accommodate both of the standard shaft lengths of 1" and 22mm.

If 22mm is required, cut the shaft at the notched position as shown on Figure 3.
